

Karen Khashkhashyan

UI/UX Designer

Hello there, I'm Karen, and I specialize in UI/UX Design and iGaming Products. With over **4** years of experience designing complex, user-centered digital experiences across web, mobile, betting terminals, and back-office platforms.

Experienced in designing and researching 10+ end-to-end iGaming products, including Slots, Crash Games, Table Games, Betshops, Web Cashiers, Virtual Sports and Terminal solutions.

Strong understanding of player behavior, betting UX, gamification, responsive game interfaces and scalable design systems. Experienced in collaborating closely with Product Managers, stakeholders and developers to transform business requirements into intuitive, engaging and commercially effective products.

Employment History

Soft Construct (Pascal gaming)

UI/UX DESIGNER

2023.02 - PRESENT

- Conduct user research to understand the needs, preferences, and behaviors of players in the iGaming industry.
- Design intuitive and visually appealing user interfaces for games across various platforms, including PC and mobile.
- Create betting flows, game mechanics and gamification experiences focused on usability, engagement and clear player interaction.
- Design a variety of UI/UX solutions for Backoffice, Web Cashier and Betshops.
- Develop interactive prototypes and mockups to demonstrate design concepts and gather feedback from stakeholders and users.
- Collaborate with stakeholders, product managers, 2D Animators, Illustrators and developers to define user requirements and project goals.
- Researched and designed 20+ end-to-end iGaming products, including Slot, Crash, Table, Betshop and Terminal experiences. Design player-focused interfaces for desktop, mobile and betting-terminal environments.
